Illustrator, Photoshop

User Experience (UX)

Personal Statement

I am a flexible and experienced individual with proven interpersonal skills. I excel in both team and individual work environments. My approach to work is action-oriented and use my problem-solving skills and self-initiatives to accomplish task objectives. Following a career break to relocate to the United Kingdom and to raise a family, I am now looking to secure a challenging and rewarding role as a software developer as it offers the opportunities to show-case my skill sets on a daily basis.

Projects

Playpals (team)

https://github.com/matthew-1313/PlayPal-FrontEnd
- Created a gamer review and community building focused application
- Used Axios, Firebase, GitHub, Svelte, TalkJS
- Key experiences gained in version control, API integration, pair coding, team lead

FE-NC-News (solo & in progress)

https://github.com/EmoryBrock/FE-NC-News.git
- Created and deployed a front end news article application
- Used Axios, GitHub, Jest, React
- Key experiences gained in version control, API integration and deployment

BE-NC-News (solo)

https://github.com/EmoryBrock/BE-NC-News.git
- Created and deployed a back end API for a news article application
- Used ElephantSQL, Express.js, GitHub, Jest, PostgreSQL, Render
- Key experiences gained in version control, data structure and production deployment
